

Naturalization Ceremony

Homestead National Monument of America is honored to host a United States Citizenship and Naturalization Ceremony on Flag Day which is June 14, 2007. There will be over 50 new citizens sworn in at the ceremony. The ceremony will take place at 2 p.m. in the Education Center's courtyard and the public is invited to attend.

Citizens from around the world will be represented. "Homestead National Monument of America is the perfect place to host this event. The Homestead Act of 1862 brought millions of people to the United States to become citizens and have chance to make a better life for themselves and their children," stated Superintendent Mark Engler. "These new citizens are doing the same thing."
